

# PRIMARY 1

## *through the year*

### Welcome to NPMPS P1!

Our P1 students dive into topics of animals and toys, as well as cover BME (beginning, middle, end) and 'what are characters' in order to prepare them for their NPMPS Reading Workshop careers.

### Station Work!

Students are split into groups to join different tasks such as phonics games, writing races, reading time with sticker prizes, and so much more. This allows them engage with the classroom material in a hands-on manner.

## ACTIVITIES!

Cross-curricular classes require out-of-the-box activities. For example, when our P1s explored the phases of the moon through the book *The Fox Who Stole the Moon*, we took the opportunity to give them an extra-fun experience using cookies! The students were allowed to get dirty, use their hands, and work as teams.

Oreo Moons

## Animal Workshop!

Students interact with and learn about a host of exotic pets through the company Animal Adventures. They explore how to engage with animals safely, and how to care for them. They meet animals such as ferrets, hedgehogs, lizards, and even snakes!
