

"Hello everyone! I hope you're as excited as I am about the new school year ahead! This year will be full of incredible challenges and opportunities for growth, and I'm thrilled to be your guide on this educational journey.

Let me give you a sneak peek into what we'll be focusing on this year:

For my P2 and P5 students, we'll be continuing our fantastic work with the DTS (Development of Text Sets) units. These units enhance your reading comprehension and analytical skills by engaging with diverse texts on various topics.

P5 students, get ready for something extra special! We're introducing a brand new 'Crime and Investigation Unit' that will put your problem-solving and critical thinking skills to the test. You'll be like real detectives, piecing together clues and solving mysteries!

To my P6 students, this is a big year for you as you prepare for secondary school. We'll be focusing on building your confidence for group discussions and self-introductions. These skills will be crucial for your upcoming secondary school interviews, and I'm here to help you shine!

Throughout the year, we'll use various teaching methods to make learning fun and effective. Expect lots of hands-on activities where you'll get to learn by doing. We'll have lively group discussions to share ideas and learn from each other. And, of course, we'll incorporate educational games to make learning enjoyable and memorable.

Here's something exciting for all grade levels - we're introducing 'Tag Rugby' as a team-building and leadership development activity! This isn't just about having fun (although it definitely will be); it's about developing essential skills like running with the ball, catching, passing, and defence. More importantly, it's about learning to work together as a team and discovering your leadership potential.

So, are you ready to embark on this fantastic journey? Let's make this the best school year ever!
